

Welcome to Diligence™

**a tool for organizing
small business workflow**

It's not software. It's a way to run your business.

Manage it all like a Pro

One simple calculator-like interface manages all the key non-accounting data in your enterprise

With Diligence™ and good accounting, you're in control*

*Use in conjunction with your current accounting software

**Manage all your non-accounting business tasks
in one easy-to-use location**

Right now, most small business data is scattered. Diligence™ gives you the power to manage your workflow from a single simple-to-use tool. Then, you can easily backup and save your important business information in one step. Diligence™ works in conjunction with your accounting software and your accounting professional. Diligence™ is a way to manage key non-accounting workflow in a way that keeps you organized and in control.

Contacts Store, search and find all your key Contacts info easily. Built-in marketing tools. Search all Orders and Quotes from Contacts.

Orders Instantly convert Contacts into Orders. Simple, powerful 'Order Status' tracking. Make reports, invoices and much more.

Quotes Create professional, searchable Quotes on-demand. Track all Quotes by status. Auto-enters your most common quote info.

Vendors Easily store and search key Vendor information, product IDs, etc. Track pricing and purchases. Create professional Purchase Orders.

Dashboards Get a one-click instant snapshot of key non-accounting data. Simple to research and store important workflow information by date.

System RQs Diligence™ works on PCs and Macs. Call for details.

Support & training Users of Diligence™ v1.0 will receive free lifetime telephone tech support, as well as free access to weekly online/telephone training seminars. v1.0 users will also receive free lifetime upgrades. We are developing a Diligence™ Trainer Certification program which will also make local training possible as the program develops.
